Jackpod Davit Set

Product information

The Jackpod Davit Set is a mobile davit which can be used when and where it's needed. A davit system is used to tie off workers who are suspended below a surface. Davits can be used for raising and lowering a worker to an area below the davit itself. Using a davit is an important part when accessing a confined space or as a rescue plan.
Bearing-out: 495-718 mm.
