Rope Pulley Standard Roll 2L

Product information

Rope pulleys are essential for routine operations involving the rescue and transportation of persons. Rope friction is reduced and the transported load is moved more easily by means of pulley blocks.
SKYLOTEC rope pulleys are fitted with ball bearings and are made of aluminium. High quality is also reflected in their design. The mould design ensures minimal material use and lightweight design of the rope pulley.
Area of application: Rescue, rope access/rigging.
