

Magnetic Steel Former Starcon

Product information

Starcon magnetic steel formers are half-round in order to create a countersinking in the concrete of the head. The form makes it easy and safe for the Starcon lifting eye to grip on to the forged head of the Starcon anchor and make a safe lift.

Material: S355J2 + NEODYM MAGNET N52

Marking: Load group, STARCON

Temperature range: 100°C

Note: The delivery time for the individual products is estimated and if the desired quantity is not in stock, please contact [CERTEX Danmark A/S – Starcon](#) for information on the applicable delivery time.
