

Ring Clutch Starcon

Product information

For transport of concrete elements the ring clutch, relevant for each load group and which is fitting into the concrete recess, is being used. The ring clutch is used for lifting and transport of the transport anchor system STA (Transport Anchors STA-S, STA-Z, STA-SA, STA-SE, Sandwich Panel Anchor STA-ST, Plate Anchor STA-P or Flat Foot Anchor STA-F). Load of the ring clutch can be made from all directions. The ring clutch consists of a bracket and a coupling head. The bracket is movable in all directions. The head of the coupling incorporates with a locking bolt which is attached to the anchor.

Material: Special steel

Marking: According to standard, Load group + Starcon, batch code, CE

Temperature range: 200°C

Finish: Black or electro galvanized - silver

Standard: CEN/TR 15728 - VDI/BV-BS 6205

Note: The delivery time for the individual products is estimated. If the desired quantity is not in stock, please contact [CERTEX Danmark A/S – Starcon](#) for information on the applicable delivery time.
