

Clevis self-locking Hook Green Pin® GKC

Product information

The self-locking hook locks automatically as soon as it is brought under tension. To release the load the user must manually unlock the hook, which prevents unintended release. This hook brings a full safety for lifting as the latch cannot be removed. The GK hook is a compact, lightweight hook. In comparison to an XL hook, it has the same working load limit, with a smaller size. The clevis design enables a direct connection to grade 8 chain. The Green Pin® Self-Locking Hook CL is available in a range to suit 7/8 mm up to 22 mm grade 8 chain.

Certification: At no extra charge this product can be supplied with a works certificate, and/or EC Declaration of Conformity.

Material: Alloy steel, quenched and tempered.

Temperature range: -40°C up to +200°C

Safety factor: 4:1

Grade: 8
