

Eye self-locking Hook Green Pin® XLO

Product information

The Green Pin® Self-Locking Hook E EN1677-3 is a grade 8 eye self-locking hook according to European standard for components for sling EN 1677-3. The self-locking hook locks automatically as soon as it is brought under tension. To release the load the user must manually unlock the hook, which prevents unintended release. This hook brings a full safety for lifting as the latch cannot be removed. The eye of the hook can be connected to grade 8 chain with a connecting link, to a webbing with a web sling connector or to a wire rope with a thimble. The flat on the eye enables the assembly with an omega link or on a thimble. The Green Pin® Self-Locking Hook E EN1677-3 is available in a range to suit 5/6 mm up to 18/20 mm grade 8 chain.

Certification: At no extra charge this product can be supplied with a works certificate, a 3.1 material certificate and/or EC Declaration of Conformity.

Material: Alloy steel, quenched and tempered.

Marking: According to standard

Temperature range: -40°C up to +200°C

Finish: painted yellow (J), red (R) or white

Standard: EN 1677-3

Note: From 12.8 t without flat part.

Safety factor: 4:1

Grade: 8
