

Wire Rope Pulling Clamp LMG

Product information

The cable grip "Little Mule" is a device for gripping, pulling and tensioning wire rope and cables up to a tensile strength of 1770N/mm².

Features:

- The parallel jaws provide a firm grip without causing damage to the wire rope.
- A special spring-loaded guide prevent the grip from dropping off the wire rope and allows instant release without jamming.
- The model LMG II-X is supplied with grooved jaws and is suitable for wire ropes up to a tensile strength of 1960N/mm².

The grip is always dependant on the surface condition and rope diameter.

Warning: The clamp can not be used on greased wire rope. Not to be used for lifting and hoisting purposes.

| Part Code | Code | Rope Ø range mm | Pulling daN | Eye dia mm | Weight kg | Delivery time |
|--------------|----------|--------------------|-------------|---------------|--------------|---------------|
| 140501500060 | LMG I | 5-15 | 2,000 | 31x44 | 1.6 | 10 |
| 140501500061 | LMG I-X | 5-15 | 2,000 | 31x44 | 1.6 | 10 |
| 140502000060 | LMG II | 8-20 | 3,000 | 31x44 | 2.9 | 10 |
| 140502000061 | LMG II-X | 8-20 | 3,000 | 31x44 | 2.9 | 10 |
| 140503200060 | LMG III | 18-32 | 5,000 | 66x93 | 9.5 | 10 |
