

## Cross Braided Nylon

---

### Product information

For universal purposes in industry, civil engineering and shipping.

**Design:** Braided.

**Specific gravity:** 1,14 g/cm<sup>3</sup>.

**Melting point:** 260°C.

**Elongation:** High.

**Strength wet/dry:** 85%/100%.

**Shock absorption:** Excellent.

**Water absorption:** Yes.

**Abrasion resistance:** Very good.

**Standard:** EN 696.
