

Anti-slip Mat Kargotec® Protect

Product information

This anti-slip mat Kargotec® Protect, with an extremely high kinetic friction coefficient of $\mu = 0.91$, is the ideal solution, because it optimally counters a horizontal movement of the load (sliding).

- Thicknesses: 6-10 mm
- Max. permissible surface load: approx. 0.8 N/mm² (DIN EN ISO 1798)
- Elongation at break: At least 120% (DIN EN ISO 1798).

- Material: Recycled rubber granules, bonded with polyurethane
- Temperature range: -30°C up to +100°C
- Finish: Multi-coloured
