

## Lifting Socket with short-wavy Tail Bar

### Product information

Lifting socket with short wavy-tail bar. The socket is anchored with a reinforcing bar. Owing to the relatively short anchorage length, these sockets are particularly for casting into wall-type elements perpendicular to the plane of the wall.

This product complies with the requirements of the European Machinery Directive 2006/42/EC.

**Material:** Lifting sockets made from steel tube for precision applications to DIN EN 10305 (grade E 355+N). Rebar steel Armeringsstål B500B acc. to DIN 488.

**Marking:** According to standard, CE-marked

**Finish:** Galvanized

**Standard:** CEN/TR 15728 - VDI/BV-BS 6205

**Safety factor:** 3:1
