

Lifting Socket with straight Bar

Product information

Lifting socket with straight bar. The socket is anchored with a reinforcing bar. Owing to the relatively long anchorage length, these sockets are particularly suitable for casting into wall-type elements parallel with the plane of the wall.

This product complies with the requirements of the European Machinery Directive 2006/42/EC.

Material: Lifting sockets made from steel tube for precision applications to DIN EN 10305 (grade E 355+N).

Marking: According to standard, CE-marked

Finish: Galvanized

Standard: CEN/TR 15728 - VDI/BV-BS 6205

Safety factor: 3:1
