

Guided Fall Arrester SKN BFD SK11

Product information

SKN BFD SK11 is a guided-type fall arrester with a compact energy absorber that makes it suitable for universal application in numerous areas. It has been tested for user weights up to 140 kilograms and is used primarily for vertical ascents on 11-mm ropes. Horizontal work on building edges is also possible, as it has been edge tested in accordance with RFU CNB/P/11.075 - Rev. 2.

Material: Polyamide, stainless steel, steel

Marking: According to standard, CE-marked

Standard: EN 353-2, CNB/P/11.075

| Part code | Diameter mm | Max. number of persons | Length m | Max user weight kg | Weight kg | Delivery time |
|--------------|----------------|---------------------------|-------------|-----------------------|--------------|---------------|
