

Vacuum Beams AERO-ADVANCE

Product information

The standard vacuum lifting beams AERO-ADVANCE are designed with hot-dip galvanized steel crossbars, intelligent addition features, and a state-of-the-art control panel. The generously sized vacuum reservoir with an intelligent warning device ensures guaranteed work and operator safety, making it a reliable choice for your lifting needs.

These vacuum beams are for lifting of items with airtight surfaces like metal sheets, glass, plastics and panels.

Product variants

The AERO-ADVANCE vacuum lifting beams are available in more versions with:

- Load capacities from 150 kg up to 1.000 kg
- From 4 up to 8 suction plates
- With 2 up to 4 cross beams
- Different suction plate diameters, cross beam lengths etc.
