

Master Link Assembly POWERTEX MC1

Product information

The POWERTEX Master Link Assembly MC1 is a Grade 10 master link assembly with an integrated connector and shortening hook for one-leg chain sling assemblies. The integrated design allows the sling length to be adjusted quickly for different lifting applications while reducing the number of separate components compared with a traditional assembly.

Available for 6 mm up to 16 mm chain and from WLL 1,4t up to WLL 10t. All models have a welded master link and forged connector.

Also available as MC2 for two-legged assemblies and MC4 for four-legged assemblies.

Best used for

- One-leg Grade 10 chain sling assemblies.
- Lifting applications requiring quick and easy sling length adjustment.

Product benefits:

- Integrated connector and shortening hook simplify sling length adjustment.
- Combined design reduces components, weight, and assembly costs.
- Designed as the top assembly for one-leg chain sling configurations.
- Grade 10 design delivers 25% higher capacity than traditional Grade 8 components.
- Conforms to EN 1677 Parts 1, 2, 3 and 4 with 25% increased WLL.
- Each forged component is crack detection tested. Production samples are proof-load tested, and the design is factory-type tested.
- The design is fatigue tested to 20,000 cycles at 1.5 × WLL, with batch traceability and a POWERTEX 2.2 certificate.
- The components may also be used with Grade 8 chain to EN 818-2 ... [Read more](#)

Marking: According to standard, POWERTEX + Model (MC1-6-10) + traceability code.

Temperature range: -40°C up to +200°C without reduction in WLL

Finish: Powder painted in luminous red

Standard: EN 1677-4 (+25% WLL) , AS 3776

Note: All models are welded

Safety factor: 4:1

Grade: 10
