Container Lifting Beam Type A and B

Product information

Lifting beam for handling standard 20-ft and 40-ft containers. Delivered complete with wire rope slings or chain slings and Type CH or MK5 container hooks for attachment to container bottom fixings.

Design: Type A is a transverse beam with a low lifting height designed for lifting by the bottom fixings (as shown). Type B picture is a transverse beam in the form of a spreader. This requires a greater lifting height but offers superior balance and lighter weight.

Proof: 2 x WLL according to SS-EN 131 55

Type A Transverse beam
Type B Transverse beam - spreader picture.
