

Helicopter Beam X-Simplex

Product information

This type of lifting beam is designed as a folding cross beam. The lifting beam is designed with fixed attachment points and a 4-part sling must be used between the lifting beam and the crane hook. Other lengths and working loads can be manufactured upon request.

Design: Lightweight welded beam construction providing good torsional stiffness.

Proof load: Usually 1,5 x WLL.

Material: Beam and plate of high-strength structural steel.

Marking: Working load limit (WLL), CE marking, manufacturer, serial number, year of manufacturing, etc.

Finish: Yellow painted. Other treatments available on request.

Note: Top sling, separate slings and other accessories to be ordered separately
