

## Helicopter Beam X-Triplex

### Product information

This type of lifting beam is designed as a folding crossbeam. The lifting beam is designed with a double pullout per arm, allowing the attachment points to be adjusted in the length/width. A 4-part sling must be used between the lifting beam and the crane hook. Other lengths and working loads can be manufactured upon request.

**Design:** Lightweight welded beam construction providing good torsional stiffness. TRIPLEX model K is special designed to fit in the side direction of a truck.

**Proof load:** Usually 1,5 x WLL.

**Material:** Beam and plate of high-strength structural steel.

**Marking:** CE-marked, Working load limit (WLL), manufacturer, serial number, year of manufacturing, etc.

**Finish:** Yellow painted. Other treatments available on request.

**Note:** Top sling, separate slings and other accessories to be ordered separately.

62056520004500 (WLL 20 tons) can also be [rented](#) from us
