# Fixed Spacer Spreader Bars PALBAF

## Product information

The PALBAF fixed spacer spreader bar is designed for lifting operations using synthetic slings, cables, and similar attachments. It supports low-headroom lifting applications where a fixed spacing solution is required.

**Best used for:**

- Fixed-spacing lifting setups with slings or cables.
- Low-headroom industrial lifting environments.

**Product benefits:**

- Tear-resistant eyelet supports use with slings and cables.
- No structural welds for a simplified beam structure.
- C2 polyester powder coating supports controlled indoor use.
- FEM5 group classification for defined lifting duty.
- Delivered with user's and maintenance manual and EC certificate of compliance
